

COPD and the Spoon Theory

by NEWLIFEOUTLOOK TEAM

Understanding the Spoon Theory

Living with an invisible illness leads to a lot of frustrations for chronic illness sufferers. If you have chronic obstructive pulmonary disease (COPD), you're likely an expert at explaining your condition to others — especially people who don't understand why you can't do everything you want to do.

Lupus sufferer Christine Miserandino came up with the spoon theory as a way to explain her condition to her best friend. Using spoons as a metaphor for energy, she demonstrated how each task in a day “costs” a spoon.

Once these spoons are gone, they're gone — there is no more energy left for your day. Most healthy people have unlimited spoons, but people with COPD must ration theirs.

Chronic illness sufferers everywhere use Miserandino's theory to help people understand them, and to connect with other sufferers — calling themselves “Spoonies.”

what is Spoon Theory?

The **Spoon Theory** was created as a way for people with chronic illness to explain their experience to others.

= ENERGY

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

IN THE U.S. ALONE
there are at least
112 MILLION
people living with one or more
CHRONIC ILLNESSES¹

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

Despite this, there is still a lack of understanding towards sufferers.

HOW IT WORKS

When you have a chronic illness, you have a **limited number of spoons** for each day — and each task you complete costs a certain number of spoons.

Once your spoons are gone, they're gone.

Say you have **10 tasks** to accomplish in a day — like showering, getting dressed, going to work, etc. — and only **10 spoons** for that day.

Some tasks may require more than one spoon, so some things won't get done. You could dip into your spoons for the next day, but then you'll have even fewer spoons tomorrow.

The difference in being sick and being healthy is having to make choices... the rest of the world doesn't have to.²

- Christine Miserandino, spoon theory creator

AM I A SPOONIE?

The theory has a following of people with a range of conditions who call themselves **Spoonies**.

Conditions the Spoon Theory Applies to Include:

- | | |
|----------------------------|-------------------------|
| ★ Lupus | ★ Arthritis |
| ★ Fibromyalgia | ★ Diabetes |
| ★ Depression | ★ Cancer |
| ★ Anxiety | ★ Chronic pain syndrome |
| ★ Chronic fatigue syndrome | ★ Osteoporosis |
| ★ Multiple sclerosis | ★ COPD |
